## Introductions

### BEARDED IRIS

#### ★BAND LEADER (Lyon '59) #54-42-6

\$25.00

This brilliant interesting variegata of deep lemon yellow and antique ruby leads the parade with five points of merit; the very broad petals, excellent branching (4-way) and placement, vigorous growth, above average height (36") and a wonderful bloomer. M. (Ali Baba X Copper Medallion). H.C. '58

#### ★CHANGING TIDE (Lyon '59) #52-48-4

\$15.00

The cool sea-green of sunset at sea, with silvery tones of reflected light on the water, make an interesting flower to those who enjoy the delicate colorings of the new green toned iris. Floriferous and perfectly branched. 36". M-L. (D60-50-1:Char-Maize x M101-47-1 X Unknown).

#### ★GOLD CARGO (Lyon '59) #54-34-2

\$30.00

The insouciant flare of this exceptionally ruffled empire yellow flower contributes a debonair quality to this lovely satin smooth broad petaled pure gold iris. Beautifully branched stalks of 34"-36". EM. (Orange Creamo X Inca Chief). H.C.'58

#### ★RARE PLEASURE (Coppedge '59)

\$22.50

This calls to mind a large hat of the Victorian era, trimmed with willow plumes. The flowers, straw yellow overlaid gold, suggests the hat; soft crimson cascading over the broad flaring falls, the plumes. Well branched. 34". M. (Gay Welcome X Tabasco).

#### ★TROY MEADOWS (DeFussi '59) #602-0

\$20.00

An interesting oncobred with standards of palest lavender flushed and veined straw yellow; falls chartreuse, blended brownish olive deepening at the shoulders, with a metallic gold overlay and a suggestion of a signal patch. Broad falls, ruffled and flared. Vigorous and floriferous. 36". E. (White Ruffles X Capitola). H.C.'57.

BAND LEADER

### SPURIA IRIS

#### ★AUTUMN GLOW (M.R.Walker '59) \$25-55

\$15.00

The golden bronze effect of this delightful round petaled flower adds a new color combination to the Spuria group. The standards, orange yellow at the base are overlaid deep tan; falls orange yellow suffused golden bronze, 50". M. (Grace Perry Nies X (Color Guard x Cherokee Chief)).

MAGIC HALO

## BEARDED IRIS

**★GOLDEN ANNIVERSARY (M.R. Walker '58)**      \$20.00

The canary yellow standards, and precise band of wedding ring gold around the bridal satin falls, presents floral symbols reminding one of that memorable occasion. 34". EM. (Harvester X Mitchell 4-7). H.M.'58.

**★MAGIC HALO (G. W. Coppedge '58)**      \$25.00

The subtle fascination of this artistic blend gives pleasure in all its blooming phases. Rosy orchid beard, shading to pearl gray at the edge of the petals, completely overlaid soft metallic gold creating a halo illusion. Ideal proportions, substance, and texture. Well branched. 36". M. (A8-51-10 X Mary Randall). HM'58

**★MALVA LACE (D. Lyon '58)**      \$18.00

Noteworthy because of its intriguing pattern of bubbles and lace which extends well into the petals and is further accentuated by peacock edges. The delectable shades of mauve and orchid are blended beautifully over the broad petals of excellent substance and texture. Its long blooming season extends past other late blooming Iris. 38". (Happy Birthday X Convention Queen).

**★TANGELO (D. Lyon '58)**      \$12.00

The dull satin texture and refined blending of nasturtium-orange and apricot enhance this symmetrical flower. The many blossoms and long blooming period contribute to its value as a garden subject. Free branching of sturdy tall stalks, combined with vigorous growth is unusual in iris of apricot color. 40". M-VL. ((D327-48-3: Cherie X Mellowglow) X Dolly Varden).

MALVA LACE

## SPURIA IRIS

**★EL CAMINO (M. R. Walker '58)**      \$15.00

The suede like texture of this outstanding deep orange yellow flower has distinctive appearance; unusual in form, vigorous and floriferous. 50". (Grace Perry Nies X Wadi Zem Zem). H.M.'58.

**★GAY LARK (M. R. Walker '58)**      \$15.00

This iris is a much improved yellow bicolor. The standards are broad and erect with very heavy substance; a soft white, blending to yellow at the center of the flower. The falls are a deep orange-yellow, edged white ( $\frac{1}{2}$  ") and heavily ruffled. The overall effect of the flower is brilliant, and the quality is outstanding. 55". (Grace Perry Nies X Canary Island). H.M. '58.

# OUR HALL OF FAME

## THE STANDARD BEARDED IRIS VARIETIES

On this page we have listed a group of iris varieties that continue to be very popular just because they are so good they compete strongly with the new kinds. We have discarded many varieties through the years as being supplanted by better ones in the same color class, but we just can't drop these. Here's your chance, then, to buy excellent iris at very low prices. They are the ones which have stood the test of time in countless gardens. We must clear this stock to make room for the many new varieties coming in. We reserve the right to make substitutions in this collection, of equal or greater value, where items ordered are sold out.

# Spuria Iris

The Spurias, sometimes called the "Butterfly Iris," are hardy and easy to grow. They range from three to five feet in height and will grow in almost any location of the garden. They are especially fine for background plantings.

Their blooming season starts about the middle of the Bearded Iris season, thus prolonging iris display in the garden. Too, they are one of the finest for flower arrangements and especially fine for corsages, resembling orchids.

Once planted, they establish themselves and do not need to be transplanted for several years. Like other rhizomatous iris, they should be given shallow plantings, that is, just cover rhizomes with about 1" of soil. Plant 1½ to 2 feet apart.

For specimen blooms we suggest an application of steer fertilizer around your plants, in early spring, when new growth is starting up. A compost mulch is very fine too. Keep them well watered during their growing season, especially the pre-blooming growth.

In late summer when foliage has dried back somewhat, cut it back, leaving from 6"-10". This part is readily removed as new growth starts up in early spring.

SHIPMENTS will be made September and October.

## Daylilies

The Hemerocallis, or daylily, is the one perennial plant that comes close to being all things to all gardeners. They can be grown without fuss or bother, fitting into various conditions of soil, moisture and full sun or partial shade.

These pest-free plants will be a permanent addition to your garden. They need not be divided and transplanted for several years.

They are in full bloom in the middle of the hot summer when flowers are not too plentiful, and many varieties continue through with reblooming periods, clear up until heavy frosts.

SHIPMENTS will be made September and October.
